

How to Set Up Doximity Dialer

1. Download Doximity app

- Directly from Apple or Google app store (Search: "Doximity")

OR

- Visit <https://www.doximity.com/clinicians/download/dialer> to receive a text link to download

2. Register for a Doximity account

- Open app > click "Register" > fill out necessary items
- Verify your professional profile information

3. Link your phone to Doximity Dialer

- Select the **Dialer tab** at the bottom of the screen and you will see a prompt to link your phone to your office number caller ID
- Select "Link my phone"
- You should then see a standard dial screen but with your caller ID above displaying your office number. If you wish to change the number (or add a number) that is displayed, tap on the number and it will bring you to a screen to change it.
